

*****please put forms inside barrel sleeve or attach to barrel*******

Name, address, ph#, email:

Enclosed parts:

SPR Estimate # or invoice #

Serial # (if receiver is enclosed):

Work requested:

Fluting instructions:

Fluting pattern (if spiral, right or left hand twist):

Where to stop the flutes (we usually stop 2" short of finish length):

Recrown? If yes, +\$30

Fluting requirements:

-Barrel must be 26" OAL minimum, crowned barrels may need to be recrowned

-top dead center needs to be marked 6" or further from breech face (for non-spiral patterns)

- We start the flutes where we can, you can request to start the flutes further from the breech than our spec

-we discourage the fluting of button rifled barrels without re-lapping

-no factory/OEM barrels
